2023 Annual User Conference

April 24-26, 2023 • Boston, MA

Returning to the Boston Park Plaza April 24-26, 2023

DRVS users from Community Health Centers, physician practices, Primary Care Associations, Health Center Controlled Networks, and clinically integrated networks are invited to join us for a day of pre-conference workshops and two days of general sessions, breakouts, and networking events.

Our growing national conference, returning to Boston, is the ideal opportunity for DRVS users to meet, share best practices and ideas, further knowledge and skills, and collaborate with the Azara team and each other.

The theme of this year's conference is the 'Butterly Effect' — the idea that small, seemingly trivial events may result in something of great significance—inspiring us to realize that our actions, no matter how small, can have a great impact.
