## SUMMARY OF TESTING METHODS AND KEY FINDINGS

The overall approach of the real-world testing plan for Azara DRVS focused on assessing the usage of clinical quality measures as implemented and certified for the module *Clinical quality measures (CQMs) — report*. Azara DRVS is marketed to be used in any setting with access to an internet browser by multiple types of organizations. Testing methods measured the overall usage of the certified CQMs by categories of users over the measurement year. Testing returned rates of usage by different user types.

Measure results showing no usage by all user types would be a scenario that indicates a technical failure of the product to provide access to users to the certified CQM reports. *No situations of zero usage for a user were discovered during the 2022 testing*

## REAL WORLD TESTING RESULTS REPORT STANDARDS UPDATES

(INCLUDING STANDARDS VERSION ADVANCEMENT PROCESS (SVAP) AND UNITED STATES CORE DATA FOR INTEROPERABILITY (USCDI))

No Azara products include these voluntary standards

## METRICS AND OUTCOMES

## Care Setting(s)

Each care setting that was tested:

- Community Health Center
- Physician practices
- Primary Care Associations
- Partners

## Definitions

- General Definition: Rate of usage of certified clinical quality measure by users of a specified care setting during a quarter of the calendar year who has viewed at least one clinical quality measure in the previous quarter.
- Outcome Denominator: Distinct count of users with a least one recorded view of the CQM in a specified care setting during the previous quarter
- Outcome Numerator: Distinct count of users in denominator with a least one recorded view of the CQM in a specified care setting during the specified quarter

## Overall Information

- Associated Criterion: § 170.315(c)(3) - Clinical quality measures (CQMs) — report
- Relied Upon Software
- Outcomes challenges encountered
- Measurement/Metric: Certified clinical quality measure report usage

## Outcomes

### Breast Cancer Screening (CMS 125)

| Test Timeframe | Care Setting             | Outcome Denominator | Outcome Numerator | Outcome Rate |
|----------------|--------------------------|---------------------|-------------------|--------------|
| Quarter 1 2023 | Community Health Center  | 1376                | 705               | 51%          |
| Quarter 1 2023 | Partner                  | 8                   | 5                 | 63%          |
| Quarter 1 2023 | Physician Practice       | 8                   | 1                 | 13%          |
| Quarter 1 2023 | Primary Care Association | 32                  | 13                | 41%          |
| Quarter 2 2023 | Community Health Center  | 1191                | 538               | 45%          |
| Quarter 2 2023 | Partner                  | 9                   | 4                 | 44%          |
| Quarter 2 2023 | Physician Practice       | 5                   | 2                 | 40%          |
| Quarter 2 2023 | Primary Care Association | 30                  | 16                | 53%          |
| Quarter 3 2023 | Community Health Center  | 1162                | 722               | 62%          |
| Quarter 3 2023 | Partner                  | 7                   | 6                 | 86%          |
| Quarter 3 2023 | Physician Practice       | 11                  | 4                 | 36%          |
| Quarter 3 2023 | Primary Care Association | 28                  | 16                | 57%          |

### Cervical Cancer Screening (CMS 124)

| Test Timeframe | Care Setting             | Outcome Denominator | Outcome Numerator | Outcome Rate |
|----------------|--------------------------|---------------------|-------------------|--------------|
| Quarter 1 2023 | Community Health Center  | 1547                | 773               | 50%          |
| Quarter 1 2023 | Partner                  | 15                  | 7                 | 47%          |
| Quarter 1 2023 | Physician Practice       | 19                  | 9                 | 47%          |
| Quarter 1 2023 | Primary Care Association | 34                  | 17                | 50%          |
| Quarter 2 2023 | Community Health Center  | 1322                | 538               | 41%          |
| Quarter 2 2023 | Partner                  | 10                  | 3                 | 30%          |
| Quarter 2 2023 | Physician Practice       | 15                  | 4                 | 27%          |
| Quarter 2 2023 | Primary Care Association | 27                  | 12                | 44%          |
| Quarter 3 2023 | Community Health Center  | 1139                | 690               | 61%          |
| Quarter 3 2023 | Partner                  | 5                   | 3                 | 60%          |
| Quarter 3 2023 | Physician Practice       | 10                  | 4                 | 40%          |
| Quarter 3 2023 | Primary Care Association | 22                  | 17                | 77%          |
|                |                          |                     |                   |              |

### Colorectal Cancer Screening (CMS 130)

| Test Timeframe | Care Setting             | Outcome Denominator | Outcome Numerator | Outcome Rate |
|----------------|--------------------------|---------------------|-------------------|--------------|
| Quarter 1 2023 | Community Health Center  | 1593                | 827               | 52%          |
| Quarter 1 2023 | Partner                  | 9                   | 5                 | 56%          |
| Quarter 1 2023 | Physician Practice       | 20                  | 8                 | 40%          |
| Quarter 1 2023 | Primary Care Association | 44                  | 23                | 52%          |
| Quarter 2 2023 | Community Health Center  | 1431                | 638               | 45%          |
| Quarter 2 2023 | Partner                  | 9                   | 2                 | 22%          |
| Quarter 2 2023 | Physician Practice       | 14                  | 8                 | 57%          |
| Quarter 2 2023 | Primary Care Association | 31                  | 17                | 55%          |
| Quarter 3 2023 | Community Health Center  | 1320                | 809               | 61%          |
| Quarter 3 2023 | Partner                  | 4                   | 3                 | 75%          |
| Quarter 3 2023 | Physician Practice       | 19                  | 9                 | 47%          |
| Quarter 3 2023 | Primary Care Association | 33                  | 26                | 79%          |

### Diabetes A1c > 9 or Untested (CMS 122)

| Test Timeframe | Care Setting             | Outcome Denominator | Outcome Numerator | Outcome Rate |
|----------------|--------------------------|---------------------|-------------------|--------------|
| Quarter 1 2023 | Community Health Center  | 1719                | 839               | 49%          |
| Quarter 1 2023 | Partner                  | 12                  | 8                 | 67%          |
| Quarter 1 2023 | Physician Practice       | 30                  | 12                | 40%          |
| Quarter 1 2023 | Primary Care Association | 47                  | 20                | 43%          |
| Quarter 2 2023 | Community Health Center  | 1456                | 623               | 43%          |

|                |                          |      |     |     |
|----------------|--------------------------|------|-----|-----|
| Quarter 2 2023 | Partner                  | 13   | 3   | 23% |
| Quarter 2 2023 | Physician Practice       | 17   | 5   | 29% |
| Quarter 2 2023 | Primary Care Association | 30   | 16  | 53% |
| Quarter 3 2023 | Community Health Center  | 1294 | 767 | 59% |
| Quarter 3 2023 | Partner                  | 5    | 4   | 80% |
| Quarter 3 2023 | Physician Practice       | 15   | 6   | 40% |
| Quarter 3 2023 | Primary Care Association | 31   | 20  | 65% |
