

Family Planning Module

Support your practices' family planning and reproductive care efforts for:

Pregnancy Intention Screening

Contraceptive Method Provision & Documentation

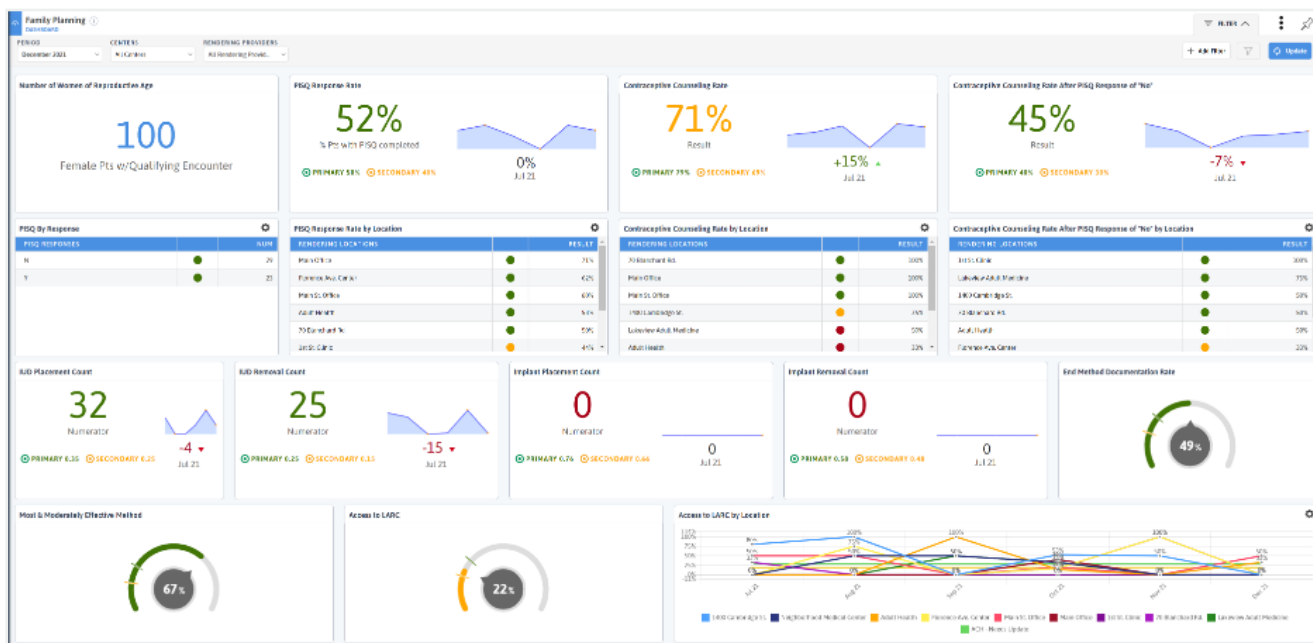

Title X Reporting

With the Azara DRVS Family Planning Module, users can assess their entire population to ensure that every patient of reproductive age receives the appropriate screening, counseling, and access to the full spectrum of contraceptive options. Practices that are Title X grantees can also take advantage of Azara's automated reporting—covering tables 1-13, including detailed patient export lists. The Family Planning Module also allows for new FPAR 2.0 encounter level data elements to be captured and exported for reporting.

The Family Planning reporting suite allows practices to:

- Address disparities in access
- Track where and how patients' contraceptive needs are (or are not) being met
- Run automated Title X reports with one click
- Leverage data for compelling story telling
- Identify gaps in provider training

Fully-Integrated Title X Reporting

By integrating family planning information with the wealth of other EHR data in DRVS, users can quickly identify trends and patterns, ensuring that every patient is being offered comprehensive, compassionate, and culturally appropriate contraceptive care. And with the full suite of Title X reporting tables, users can save time and resources by running reports with one click.

LINE	PRIMARY METHOD	UNDER 15 (U)	15 TO 14 (A)	16 TO 19 (T)	20 TO 24 (S)	25 TO 29 (D)	30 TO 34 (F)	35 TO 39 (X)	40 TO 44 (W)	45 TO 49 (M)	TOTAL FEMALE USERS (SUM COLS 4 TO 10)

The DRVS Family Planning Module Includes:

10 measures to track progress toward goals and population-level contraceptive access metrics:

- Annual End Method Documentation
- Annual Access to LARC (NQF #2904)
- Annual Contraceptive Counseling Provision
- Annual PISQ & Same-Day Contraceptive Counseling
- Annual Provision of Most & Moderately Effective Methods (NQF #2903)
- Implant Placement Count
- Implant Removal Count
- IUD Placement Count
- IUD Removal Count
- Annual Pregnancy Intention Screening Questionnaire (PISQ)

8 reports to easily share information and meet grant requirements:

- Family Planning Scorecard
- Family Planning Dashboard
- Title X: Demographic Profile (Tables 1-3)
- Title X: Economic and Social Profile (Tables 4-6)
- Title X: Family Planning Method Use (Tables 7-8)
- Title X: Cancer Screening (Tables 9-10)
- Title X: STD Screening (Tables 11-12)
- Title X: Family Planning Encounters (Table 13) provides export with data elements and format required for FPAR 2.0

Other reporting features:

- Contraceptive Medications Registry Data Element to easily see prescribed contraceptives
- PISQ Response filter to quickly perform ad-hoc analysis on the population's family planning intentions
- PISQ Response Alert to facilitate point of care pregnancy intention screening
